what schools have said...

"The 2 BVS 65" Screens are absolutely stunning!

So much better than the old interactive whiteboards and projectors. Your engineers arrived on time and finished the installation. I have to say they have done a really good job and the attention to detail was spot on. I've seen similar installation teams doing the same kind of job before and your two are by far the best. Really pleased with the finished installation and the excellent level of service you have provided. Furthermore, your prices are very are very keen and affordable.

If any school is considering purchasing touch screens, your BVS ECOtouch 65" Screens tick all the boxes!"

Penwortham Girls High School

"We made a decision to order one BVS ECOtouch screen on a trolley. Their service surpassed our expectations and we ordered 5 more. We cannot find a better quality product at this price, and one that is backed by such excellent service. We have just ordered 6 more!"

Godstowe School (High Wycombe)

"Just to say a big thank you for your help in supplying and installing our new BVS ECOtouch Screen. Your service has been second to none."

Straits Primary School

"The BVS ECOtouch Screen is brilliant. It has excellent clarity and very fast responsiveness. It is just like having a massive iPad on a wall. Nursery cannot wait for theirs to be installed!"

St Johns CE Primary School

"I was very impressed with your knowledge and understanding of what's needed in education. Money is tight within education and your prices are very competitive. We initially ordered the one recommended BVS ECOtouch solution, which was successfully installed by your excellent installation team. Hence I've just ordered 5 more and will be ordering more in the very near future."

Corpus Christi RC High School

"We've been very impressed from the outset at the very high level of customer service and the unbeatable prices. The 14 ECOtouch screens are in place now and children and staff love them as they're so multi-functional and of such good quality. They work seamlessly with our AppleTVs and the children love being able to use the technology that is an integral part of their daily lives."
